

Presenter guidelines

Poster discussion sessions

Preparation before the conference

As a poster discussion presenter, you are requested to prepare a poster and a very brief presentation (maximum 2-3 slides), which summarizes the key findings and important implications of your work. Your presentation should take no more than five minutes. Each session will consist of 4-6 abstracts of five minutes each. A five-minute question and answer session will immediately follow each presentation. Time permitting, an interactive moderated discussion, facilitated by the co-chairs, will be held at the end of the session.

The session chair/co-chairs will receive all abstracts that will be presented in the session and have been instructed to contact you prior to the conference.

When requested, please send your talking points and your presentation slides to the session chair/co-chairs and the session point person so that they can review the presentations for duplication or gaps.

Technical requirements for presentations

The AIDS 2018 computers will run MS PowerPoint 2013. Only MS PowerPoint (*.ppt or *.pptx) presentations with video formats will be accepted. Use the pre-installed standard font types available in MS Office 2013.

Movies and video files

If your presentation contains links to video files, it is essential that you bring not only your PowerPoint file but also your video files to the speaker centre. Most video files types (e.g., .MP4, MPEG, .wmv, .AVI) are accepted. All videos linked to PowerPoint slides must be tested and checked in advance in the speaker centre to make sure that they will work properly.

Please note that Prezi is not supported. If you are using this format, your presentation must be sent to the secretariat prior to the conference, and it must be converted and tested before it can be uploaded in the speaker centre. Please contact the secretariat at programme@aids2018.org for further information.

Data format – images, audio and movies

Place all audio and movie files linked with the presentation into a single file folder (for example, when transferring the presentation from your hard disk to removable drives, such as USB sticks, or when uploading it). Do not use any passwords or encryption for your files.

Flash animations and macros

Flash animations are not supported. If they are essential to your presentation, please contact programme@aids2018.org.

Do not use macros within your presentation.

Presentation format

Please use 4:3 as your presentation format.

File size

There is no size limit for presentations uploaded on site at the speaker centre (it is, however, recommended that presentations do not exceed 500MB).

Saving of files

For on-site uploading at the speaker centre, the presentation has to be saved on a USB memory stick (which is preferred) or an external hard disk.

Please use only "WinZip" to pack your data (find a free download of the current versions at www.winzip.com).

Fonts

Do not use special fonts that are not part of the standard PowerPoint package as this will cause problems while uploading your file.

Special characters

To avoid any compatibility problems, please do not use special characters (for example, «, Ö, Ø, ñ, ε, ®, ý, }, {) to name your presentation or movie files.

If you use a Macintosh computer

Please note that PowerPoint.mac and Keynote (*.key) presentations are not accepted. Even if you have transferred your presentation to a Windows format, you must check your presentation in the speaker centre to ensure that it is fully compatible with the conference computers.

Conflict of interest disclosure in presentations

The conference organizers require faculty members (session speakers, chairs, moderators and facilitators) to disclose any conflicts of interest that they may have. The intent of this policy is not to prohibit faculty members from presenting or participating in sessions, but rather to inform the audience of any bias that they may have. The conference organizers thus ask that all speakers/presenters with a conflict of interest fill in a disclosure form and include disclosure slides at the beginning of their presentation.

The purpose is to identify and resolve potential conflicts of interest that arise from relationships with commercial interests relevant to the content you are planning, developing or presenting for this activity.

Please note that the disclosure slide(s) must be included even if you do not have a conflict of interest. The slide will thus state that you have no conflict of interest.

If you have conflicts of interest, please include a short description of the conflicts of interest and explain how you have made sure that your presentation is not affected.

For the purpose of this policy, the following principles apply:

1. A commercial interest is any entity that produces, markets, re-sells or distributes healthcare goods or services consumed by, or used on, patients.
2. Any financial relationship **within the past 12 months**, as well as known financial relationships of your spouse or partner, must be disclosed.
3. **Types of relationships that must be disclosed** include full-time or part-time employee, independent contractor, consultant, research or other grant recipient, paid speaker or teacher, planning or advisory committee or review panels, ownership interest (product royalty/licencing fee, owning stocks, shares, etc.) or any other financial relationship.

Please note that failure to disclose or false disclosure may result in the Planning Committee replacing the faculty member.

If you need more information or support regarding disclosure of conflicts of interest, please contact us at cme@aids2018.org.

The Pharma Codex

In the European Union, there are specific rules for pharmaceutical advertising with which speakers and chairpersons must comply. The regulations around pharmaceutical advertising are governed by EU Directive [2001/83/EC](#) and implemented by the Dutch Foundation for the Code of Pharmaceutical Advertising. These rules were developed to serve as a code of conduct for self-regulation of drug promotion. This code of conduct protects the general public, or non-prescribers, from pharmaceutical marketing.

AIDS 2018 speakers and chairpersons must comply with the regulations governing pharmaceutical advertising. There are three requirements for compliance:

- 1. Presentations that include drug-specific information must be presented in a balanced and factual way.**

As defined by the [Dutch Foundation for the Code of Pharmaceutical Advertising](#), “balanced” means that complete information is given about all the relevant treatment options in an educational manner. Drugs should not be “promoted”, meaning that both positive and negative information must be provided in a neutral manner.

2. Speakers must disclose their ties with commercial interests BEFORE their presentations.

There is a required format for the disclosure slide, which can be found here: <http://cgr.nl/en-GB/Medische-congressen/Format-of-disclosure>.

3. Chairpersons must be instructed to ensure that moderated discussions are facilitated factually and neutrally.

AIDS 2018 speakers and chairpersons giving or facilitating presentations that include drug-specific information must ensure that the information is presented in a balanced and factual way. Complete information should be given about all the relevant treatment options in an educational manner. Moderated discussions should also be undertaken in a neutral tone. Chairpersons are asked to caution participants and redirect the conversation if the discussion veers toward drug promotion, for example, drug names being mentioned repeatedly, or only positive aspects being highlighted.

It is the speaker's responsibility to ensure compliance with the code of conduct. An auditor will be present on site. For a complete overview of the regulations, please visit the CGR website: www.cgr.nl.

Guidelines for posters included in poster discussion sessions

You are asked to prepare a paper poster presenting the key findings of your work. The posters will be displayed outside the session rooms for the duration of the conference (Tuesday-Thursday). The session chair/co-chairs will invite the audience to view the posters after the session.

Poster discussion presenters are asked to mount their posters outside the session rooms on Tuesday, 24 July, between 08:00 and 09:00, and remove them on Thursday, 26 July, between 18:30 and 19:00. The poster exhibition staff will remove and dispose of posters that are not taken down. The staff assumes no responsibility for material left behind.

Guidelines for poster layout

Posters should be laid out in landscape style. The poster board surface is 197cm wide and 97cm high; make sure that the poster fits into this surface. The poster number will be displayed on the top of the poster board. Mounting materials will be available at the poster helpdesk. The recommended material to print the posters is paper (please avoid laminated paper).

Your poster should quickly orient the audience to the subject and purpose of your study. Here are some hints that may be helpful for the preparation of your poster:

- Your poster should have a clear message, a logical layout and be easy to comprehend in a couple of minutes.
- Make sure that the specific sections (such as the background, methods, results and conclusions) are easy to locate on the poster.
- Design the individual sections of your poster so that they can be quickly read; avoid large blocks of text and long sentences.
- Make sure that the type/font size is large enough to be read at a distance of 1.5 metres (five feet). Do not make type smaller than 18pt for text and 36pt for headings. Try to keep your word count as low as possible.
- Supporting images (graphs, tables, illustrations, photographs, etc.) can be very helpful and are often necessary to display results. Make sure that the images are easy to understand and are not overloaded with information.
- Make sure that there is enough contrast between the colour of the type and the poster's background.

Guidelines for e-posters

In addition to paper poster, presenters are invited to upload an electronic poster (e-poster). The e-posters will be published on the conference online programme. Presenters may choose to upload their regular poster electronically or prepare a poster specifically for online viewing. If preparing for online viewing, a PowerPoint presentation with various slides is recommended. The formats allowed are .pdf (preferred), .ppt or .doc files. Please ensure that the resolution is optimized for online viewing and not printing.

Instructions for uploading the e-poster will be sent to abstract authors via email. E-posters may also be uploaded on site in the poster exhibition area.

Click [here](#) to download the AIDS 2018 e-poster template.

At the conference

Please check in at the speaker centre at least four hours before the start of your session to upload your PowerPoint presentation and check on the consent for publication of your presentation material.

The speaker centre is located on the ground floor of the RAI, in Europe Foyer 2, close to the main entrance. The opening hours are as follows:

Sunday, 22 July	14:00 – 18:30
Monday, 23 – Thursday, 26 July	08:00 – 18:30
Friday, 27 July	08:00 – 14:00

Presentation upload

All PowerPoint presentations must be uploaded prior to the session as it is not possible to run PowerPoint presentations directly from a laptop in the session rooms.

Presentations should be saved on a USB memory stick or CD/DVD-ROM, and brought to the speaker centre. Presentations should be uploaded at the speaker centre at least four hours prior to the start of the session. The presentations will then be uploaded to the session room network and made available in the session room at the time of the presentation.

We kindly ask for your understanding: due to time limitations at the speaker centre, presentations should preferably be prepared and edited before upload. Thus, please bring your presentations with you in a ready-to-upload format.

When agreeing to publish your presentation, please **make sure that you remove any confidential data that you do not want shared with the public** (data behind tables/graphs, speaker notes, etc.) before submitting your presentation for uploading on the online programme.

IMPORTANT: Check-in at the speaker centre is mandatory for all speakers.

At the speaker centre, there is a rehearsal room where presenters can run through and practice their presentation prior to the session.

At the session

- Please arrive at the session room **at least 15 minutes** before the start of the session.
- Check the room where the session will be held and familiarize yourself with the space and equipment.
- Meet the chair/co-chairs and run through the session line-up (i.e., order, panel discussion, special circumstances).
- A presentation timer will be available in the room. The presenter is responsible for delivering the presentation within the specified time. The session chair/co-chairs have received instructions to stop the speakers if they run over their time.

Session room equipment

Session rooms will contain the following basic equipment:

- Lectern with microphone, laptop and mouse
- Chairperson table with microphone(s)
- Screen displaying the PowerPoint presentation (in some of the bigger sessions rooms, the speaker might be displayed too)
- Presentation timer
- Microphones on stands for questions from the audience.

Protest protocol for speakers

Principles and values of conference participation at AIDS 2018

The International AIDS Society (IAS) endorses freedom of expression as an essential principle in the fight against HIV and AIDS and in promoting full participation in our conferences. Peaceful protest has always been and continues to be a key element of participation at the conferences. Protests expected at AIDS 2018 could include rallying and demonstrating as part of social or political movements.

The IAS opposes the destruction of property and the use or threat of physical force by any individual or group of individuals during the conferences.

Procedures involving disruptions within sessions

You will be notified if conference organizers anticipate a disruption in your session. Protesters are allowed two minutes to protest during a session or satellite symposium. IAS staff and security will be present in the majority of conference sessions and will handle disruptions that persist longer than two minutes. If no IAS staff are present in the room, the in-room audio-visual manager will contact IAS staff for support.

Please follow these steps in the event of a disruption:

Step 1

In session halls, a slide will be displayed by the audio-visual technicians in your line of view with the following text:

*Protesters have **2 minutes.***

*Please **step away from the microphone.***

*The **session will resume** once the protest is finished.*

A new slide will be displayed if the protest does not stop after 2 minutes.

Step 2

Step away from the podium and microphone and remain calm.

Step 3

Allow for the protest to unfold for two minutes. At the end of two minutes, a slide will be displayed on the main screen asking protesters to re-take their seats.

Step 4

As the protesters are exiting or re-taking their seats, step back to the podium or the microphone and continue speaking. The session resumes.

Step 5

If the protest does not stop within two minutes, IAS staff and security will intervene and engage with the protesters to address the situation.

Step 6

Step back to the podium or the microphone and continue speaking once the protesters have taken their seats. The session resumes.

Slide templates

Protest speaker slide

Protest is welcome at AIDS 2018
Protesters have **2 minutes**
Please ***step away from the microphone***
⊙
2:00
The **session will resume** once the protest is finished.
A new slide will be put up if the protest does not stop after 2 minutes.
